Address: **1408 Teasley Ln, Urban, Denton**
Price: **650.00 \$**

I'm replacing the appliances.

The washer is an LG front-load washer with a door that can switch sides to change how it opens. It has a True-Balance anti-vibration system and several wash functions including steam washing for households with the proper connections and has a helpful step-by-step washing progress and 'time to finish' counter as well.

The dryer is much more simple but just as effective and is a Whirlpool with AccuDry and several functions. Both of these appliances are capable of safely washing and drying anything from delicate articles to full quilts.

I have a furniture hand truck and will bring the appliances out for loading, however the furniture dolly will remain with me after loading. Payment required before appliances will enter a vehicle. Cash, Venmo, CashApp, Zale. Contact 512-393-1196 with any inquiries. Please leave a voicemail if I am unable to reach the phone.
